

FUNGIBLE DEMOCRATIZES DATA CENTER CLOUDIFICATION

ABOUT FUNGIBLE

Fungible aims to effectively cloudify the world's data centers by utilizing the Fungible DPU™ to connect CPUs, GPUs and all-flash arrays via Ethernet. Fungible solutions powered by the Fungible DPU enable a secure, high-performance, massively scalable, composable and hyperdisaggregated infrastructure for the data-centric era.

PRODUCT PORTFOLIO POWERED BY THE FUNGIBLE DPU

Fungible Storage Cluster

Fungible Storage Cluster (FSC) is the world's fastest secure, scale-out and all-flash NVMe/TCP disaggregated storage platform. FSC delivers best-in-class performance characteristics for IOPS, latency, and throughput with a node-based architecture that starts small and can grow to data center scale.

Fungible GPU-Connect

Fungible GPU-Connect (FGC) is a 4U system that composes GPU and CPU resources across Ethernet. FGC allows data centers to centralize GPU assets into a single resource pool to be attached to servers on demand and across racks.

Fungible Accelerator Cards

Fungible Accelerator Card (FAC) family of host adapter cards bring all data-centric functionality including network, compute, storage, security, and GPU disaggregation into a single platform.

Fungible Data Center

Fungible Data Center (FDC) transforms complex and expensive data centers to highly efficient and on-demand powerhouses. The FDC is an on-premises and turn-key solution that delivers bare-metal performance at the cost efficiencies and simplicity of hyperscale data centers.

LEADERSHIP TEAM

Fungible was founded by Silicon Valley veterans **Pradeep Sindhu** and **Bertrand Serlet** in 2015 to revolutionize the performance, reliability and economics of data centers at all scales. Sindhu previously founded Juniper Networks and held roles as CEO and CTO. Prior to Fungible, Serlet founded a storage startup and before that was SVP of Software Engineering at Apple. In July 2021, Fungible appointed former Marvell and Broadcom executive Eric Hayes as CEO. Hayes brings extensive experience in scaling organizations and accelerating business momentum with strong customer partnerships.

Fungible has a world class team with deep experience in innovation and over 50 Fungible patents. Fungible's headquarters is in Santa Clara, California, and has a satellite Engineering office in Bangalore, India.

TOP-TIER INVESTORS

Fungible has raised over **\$300M in funding** from top-tier venture capitalists and strategic investors.
